

10' Tent Wall Template

Please place all artwork in the bottom layer labeled ARTWORK.

This template was created to be used with Adobe Illustrator and vector images. If your artwork contains non vector images, please call us.

PMS colors should be included for all vector images.

The Red Box is the Live Area
The Blue Lines are the Splice Lines.
The Black Box is the Bleed

Keep all important text and complex images away from the Splice Lines. Any text/images that fall on the Splice Lines will have stitching running through it. Background images/color must extend all the way to the Black Box. If your background does not completely fill the Black Box there is a risk of your tent having a thin white border.

If any of this sounds Greek to you,
please call us at 1-800-958-3009

Do **NOT** flatten template.
